Purchasing and Acquisition Protocols

We are legally obliged to purchase materials from those library suppliers who have won national tendering contracts.

Library members try and provide the widest range and choice of stock while working within allocated resources. The purchase of stock is done in consultation with branch managers and linked to individual branch needs, budgetary resources and the stock collection policy.

The library service will do its utmost to ensure the per capita book fund target of €4 is reached as per recommendation in *'Our Public Libraries 2022 – Inspiring, Connecting and Empowering Communities'*.

Purchasing of Self-Published Titles

Kilkenny County Council Library Service may purchase self-published titles by local authors if there is a compelling reason to do so (valuable local content, high local interest etc). These works must fit within the library's general guidelines for its collection as per current collection development policy. The library is more likely to add a self-published book to the collection if it has been reviewed in established sources.

Donated materials will be evaluated by professional librarians according to the criteria in our Collection Development Policy. The author must be a local author and copies of the self-published book will be accepted where appropriate. Donated books must have been published within the past three years and in unused, new condition. Donated items will be the subject of the same retention standards as any other material, and may be withdrawn over the course of time.

Donations

Kilkenny County Library Service welcome donations of material subject to our Donations Policy, see Kilkenny County Council Library Service Store Policy May 2017.

Stock Management

Kilkenny County Council allocates a budget annually for the purchase of library books, audio, film, music, newspapers and special collections.

Maximum use is now also made of the National Library Management System, Sierra when ordering stock for patrons. This enhances the service we provide for patrons around the area of stock management.

Stock retention policy

Ideally a last copy of each lending title should be retained however with limited space this is not possible. Guidelines for stock retention and disposal of stock is outlined in *Kilkenny County Library Service Store Policy May 2017*. Please refer to this policy.

Weeding

Weeding is an essential element of collection development that ensures library materials are useful and accessible.

Criteria used for weeding

- Age, condition and currency
- Staff members professional judgement
- Number of loans and availability through LMS

Disposal

Disposal refers to the complete removal of library material from the Library Service.

- Send to store if it meets criteria
- Donate to local institutions
- Withdraw for collection by Better World Books – they do not except encyclopaedia sets or periodicals
- Recycle
- All withdrawn stock to be stamped withdrawn.
- Material held in the store will also in turn be reassessed periodically for possible disposal

Stock Promotion and Training for Collection Development

Stock promotion is essential to encourage use of the library service and its collections.

This is achieved by;

- Ongoing displays in Branch Libraries
- Through library website and social media
- Through staff recommendations
- Local publications and media coverage
- Staff training
- Through the three strategic programmers outlined in Our Public Libraries 2022, reading and literacy development, learning and information and community and culture.

Staff training:

Authority for the selection and acquisition of materials rests with the Co. Librarian who delegates responsibility to designated staff members. In order to facilitate staff training and professional development, where practicable, all grades are involved in the purchasing of stock

Conclusion

These guidelines will aid Kilkenny County Library staff to apply professional awareness and judgement in the selection, acquisition, preservation, housing and subsequent deselection of library material in various formats.

The Collection Development Policy will be periodically evaluated and revised as necessary to provide guidance for implementing future changes in the collection.
