COMICS PLUS

Many of us grew up reading comics, and fondly remember our favourite characters. Some laughed at Dennis the menace and Desperate Dan, while others enjoyed the thrilling space adventures of Dan Dare, or the sporting exploits of Roy of the Rovers.

As with so many forms of entertainment, comics have now made the transition into the electronic universe, and, as a member of Kilkenny Libraries, you can continue to enjoy a great selection of fantastic comics titles on your device.

With Comics Plus, you can borrow thousands of free eComics and graphic novels and manga from your library. All you need is to be a member of Kilkenny Libraries, and with your library card and PIN (both provided when you join), you can easily access Comics Plus through your browser, or download the Library Pass app.

COMICS PLUS

Comics Plus can also be used by those aged eighteen years and younger. Comics Plus hosts a dedicated children's library and also a teen library, as well as a collection more suitable for an older audience. Parent or guardians are responsible for their children's digital content selections when using this service.

The home page features popular titles and series as well as carousels of new collections, so it's easy to browse.

To search for your favourite comics, all you have to do is enter a title in the search bar, or click a tab to browse comics by popular titles. On Kilkenny Library's webpage, you can find a very helpful short video which guides you through the easy steps involved in using the **Comics Plus App**.

You'll never be without a great comic, graphic novel or manga title to read.

Registration is easy. All you need is to have a library card and PIN. Choose which collection you want to register for, and then enter your details.

With **Comics Plus**, you can have unlimited downloads, and the great news is that there no need to reserve titles-if you see it, you can download it!

But of course, we must not forget our collection of physical graphic novels and manga. As always, we have continued to add to our collection over the past year, ensuring we have a wide selection of titles to cater for all tastes.

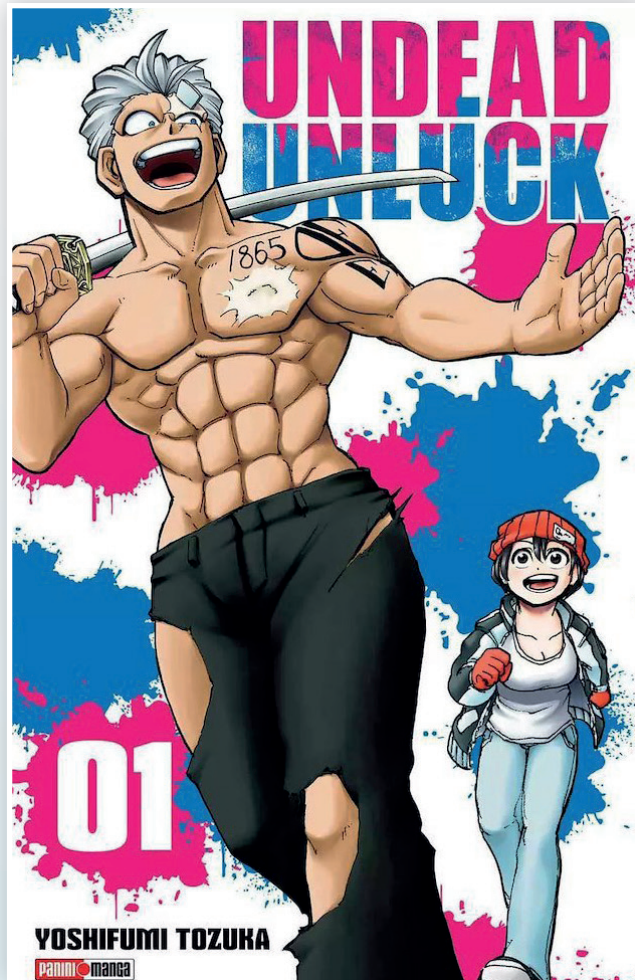

Do you enjoy superhero comics? Then you won't want to miss such titles as our two hardback omnibus collections of Black Panther, which feature Christopher Priest's celebrated run as author of the strip. Or such classic X-Men titles as **Days of Future Past** and the **Dark Phoenix** saga.

There are new titles featuring such characters and teams as, to name just a few, **Spider-Man**, **Spider-Woman**, **Captain America**, **Thor**, **Iron Man**, **Superman**, **Wonder Woman**, **Avengers**, **Fantastic Four** and the **Justice League of America**.

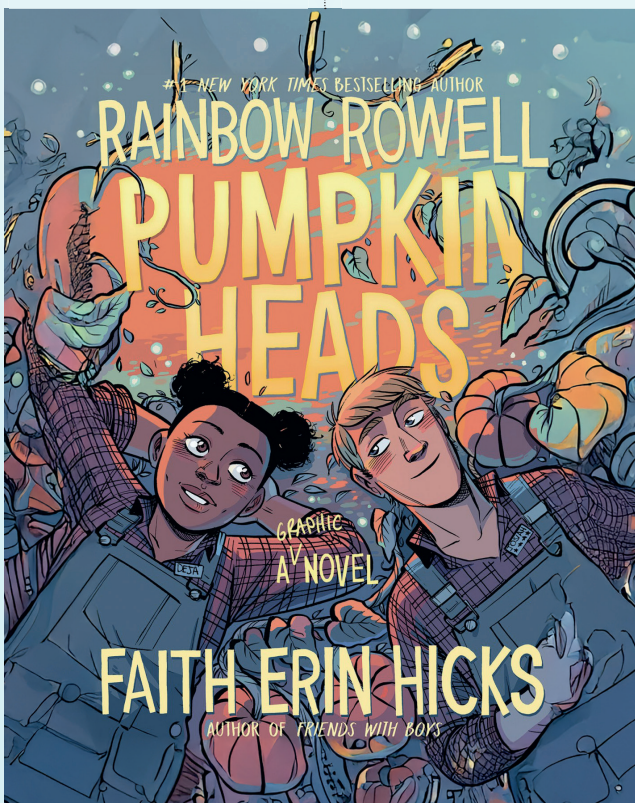

If all this sounds too earth-bound, then why not sample some of our new **Star Wars** titles such as the **Thrawn** trilogy, considered one of the greatest stories from the Star Wars comics universe.

For Manga lovers, we now have the excellent **Undead Unluck** se-

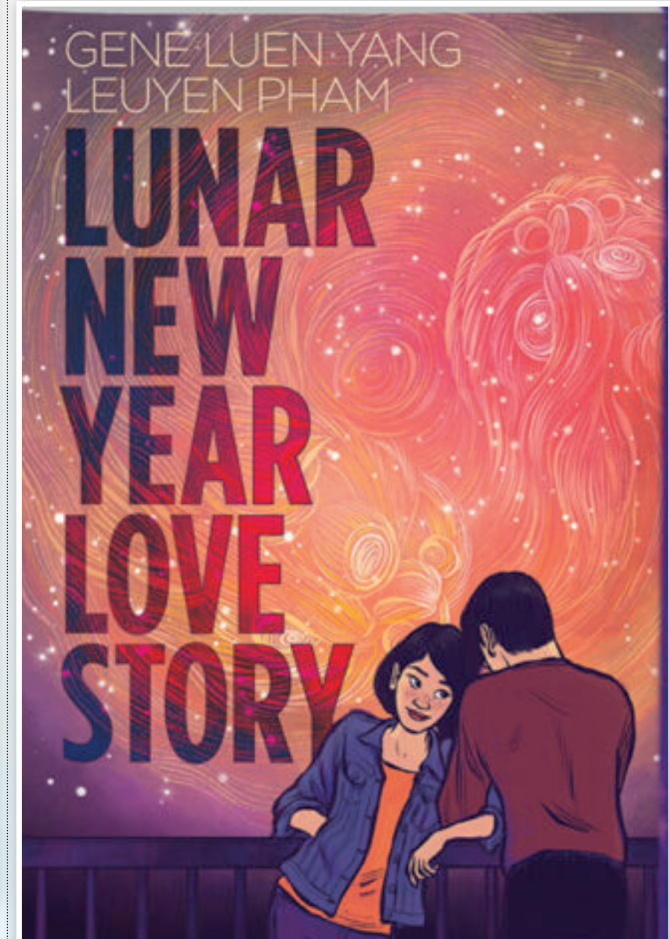

ries. And teenage fans of graphic novels which deal with more realistic themes will find much to enjoy in such titles as **Pumpkin Heads**, **Lunar New Year Love Story** and **The Girl from The Sea**.

Between the excellent Comics Plus, and the titles you will find on the shelves in our branches, if you are a true lover of comics, graphic novels and manga, you are certain to find many titles to

enjoy from Kilkenny Libraries. So, don't wait - if you're not already a member of Kilkenny Libraries, register to join and dive into the fun, wonderful world of comics.
